Desirable City Property for Sale

The undersigned having purchased the
Harrison Hotel and intending in future
to apply all his time, talent, attention and
money to the keeping of First Class Hotel,
is desirous of selling the House and lot
ground, containing acres, upon the corner
of — and Mill streets, in Cynthiana, Ky.,
and being the same property occupied as a
residence by Leah Cason. The House is a
good substantial brick, in good repair,
and has all the necessary outbuildings, con-
sisting of kitchen, smoke-house, &c. &c.
A never failing well of water is upon the lot,
and a large and well selected assortment of
fruit trees, apple, cherry and current bushes,
beautifully and carefully cultivated. Persons
desiring this description of property
will do well to call upon the undersigned
at his Store House upon Main Street, who
will take great pleasure in giving all desired
information, or if desirable will accompany
any such persons as may wish to purchase
over the entire premises. Terms reasonable.
Payments easy. Call on or address

MANHOOD.

HOW LOST, HOW RESTORED

JUST published, second edition, Dr

LEWIS, (254 pages). The Medical

Companion and Guide to Health, on the

radical cure of Supercatarrhs or Gonorrhea

Weakness, Impotency, Mental and Physical

Impairment, Impediments to Marriage, etc.,

and the Venereal and Syphilitic Maladies,

with plain and clear directions for the

speedy cure of Secondary Symptoms, Gon-

orrhoea, Gleet, Strictures, and all diseases

of the skin, such as Scurfy, Scrofula, Eczema,

Boils, Blotches and pimples on the face and

body, Consumption, Epilepsy and Gtes, in-

duced by self-indulgence or sexual extravagance.

The celebrated author, in this admirable

Treatise, clearly demonstrates, from a forty

years' successful practice, that the alarming

consequences of self abuse may be radically

cured; pointing out a mode of cure at once

simple, certain and effectual, by means of

which every sufferer, no matter what his

condition may be, can be effectually cured,

cheaply, privately and radically. This

book should be in the hands of every young

man and every man in the land.

Sent under seal, in a plain envelope,—

Price 50 cents.

Address, DR. LEWIS,

No. 7 Beach St. New York.

CYNTHIANA NEWS.

CYNTHIANA, --- NOVEMBER 10, 1870

A. J. MOREY, EDITOR.

uniform temperature, which all who

have been there, and all men of

science who have written upon the

subject of climate, have by common

consent given it.

Again, Colorado like Piedmonte

lies at the foot of the Mountain, and

her plateaux are elevated from 4,000

to 6,000 feet above the sea level,

away up in the regions of the pure

air. Away up there, the atmosphere is

composed only of its two elements

and the principle called ozone,

which gives elasticity and buoyancy

and to use the common expression

of travelers, one feels as if he had

wings and could fly, when he inhales

the life giving air. The malaria of

low swampy districts, the poisonous

carburetted hydrogen, and carbonic

acid gases, which infect the lower

air everywhere, and being heavier

than air, prevail most in the lowest

stratum, and which are the fruitful

causes of fever and ague, and all

manner of bilious disorders, culmi-

nating in yellow fever, have no place

in those pure regions, thousands of

feet above the sea level.

Thus her pure air, her climate, her

mineral and agricultural resources,

and stock raising facilities, all point

to Colorado as the next great objec-

tive point of the emigrant, and the

refrigerating freight cars lately

introduced which transport beef

and mutton from the great western

plains, fresh into the markets of St.

Louis, Chicago and New York, allow-

ing of slaughter all along the lines of

road, make the grazing lands of the

great west, richer than mines of gold.

Just now the soldiers of the late

war are awakening to the value of the

government gift of 160 acres of first

class land, secured by the late

amendment to the Homestead Act.

And over and above all other causes

in operation which will make the

coming year an eventful one in the

history of emigration, is the present

war in Europe, which will probably

be over by next Spring, and will with

its increased burdens, make thou-

sands upon thousands who have been

marching with chaps and heel-

ings, take up their line of march for

the great West, where the strifes of

the old world, let us hope may be

forgotten, in the development of the

resources and the enjoyment of the

blessings of the new.

BERRYVILLE, October 20th.

Mr. Money:—Our very able school

commissioner, Mr. J. F. Lebus, gave

to the readers of your paper, a few

weeks ago, the "Teacher in the

school room." Objection was made

at the time as to its brevity, and the

hope expressed that he would at

some future time, favor the public

with all the requirements indispensa-

ble to a good teacher. Inasmuch

as nothing has emanated from his

pen on the subject, your correspond-

ent will say a few words.

CYNTHIANA NEWS.

CYNTHIANA, -- NOVEMBER 30, 1870.

A. J. MOREY, EDITOR.

KENTUCKY NEWS.

Refugees from the counties comprising the Lexington District give Beck a majority of from 3,500 to 5,000. Jefferson county, gave Beck 50 majority. Last August it gave a radical majority.

In this, the 6th District, we learn that Kenton county will give a majority of 1,000 for Arthur. Wrightson's majority in the city of Newport is 312. It would not astonish a if he carried Campbell county.

Pendleton county will give Arthur some 30 majority.

Harrison gives Arthur 583 majority. In August 585 was the average majority for Democratic candidates—a falling off of 205 votes. The cause for this change must be answered by those Democrats who did not vote.

THE ELECTION RETURNS!

DEMOCRATIC VICTORIES.

"How is this?"

New York, Nov. 29th, 1870.

New York City gives Hoffman, Democratic candidate for Governor a majority of 50,000—and the State is Democratic by 30,000. A great gain in Congressmen is made.

The News from Missouri leaves but little doubt but that Gratz Brown, and the whole Conservative ticket, has been elected by a big majority. The Legislature is all right.

St. Louis, Nov. 5.

The total vote of this city gives a Democratic majority for Governor of 22,240. Vaughan, Democratic candidate for Congress, is elected over W. J. Smith, former member, by perhaps 5,000 majority.

From present indications, Brown will be elected Governor by 50,000 majority.

In Maryland the Grant Administration attempted to control the elections, but Swann and Arner, Democratic candidates for Congress were both elected.

Baltimore, Nov. 5.

The election passed off quietly in this city. Democratic candidates in Third District, elected by 4,665 majority, and in the Second by 4,026, total Democratic majority in the city, 8,691. Total vote cast 35,945.

Delaware has elected a Democratic Governor, Legislature and Congressmen.

In Tennessee the Democracy have elected a Governor and eight members of Congress, and it is believed that ten have been elected. Good for Tennessee.

Northern Democratic Journals assert that the election presents a "very sad" appearance especially for their radical friends. Yes! "it is very sad."

Kentucky has gone Democratic by 50,000 majority.

COLUMBIANA, KY., Nov. 5, 1870.

MR. A. J. MOREY—Dear Friend:

In last week's issue of your stirring Democratic paper, I see you notice my intention to move to Ohio, in a few days, and that my old location will then be a good place for a Physician.

I wish you would say to the people in your next publication, that my partner Mr. Chas. Leuba, has succeeded me and that I recommend him to the candid consideration of an enlightened community; both for his moral worth and scientific medical attainments. He is a graduate of the Louisville school of medicine and I consider him well posted in the theory of medicine, in all its branches, and firmly believe he will make a first class Practitioner.

Truly yours, T. W. HEDGES.

Fire in Columbiana.

On Saturday last Mr. and Mrs. Thomas Mathias, being absent from their home, the little children ignorantly set fire to their house and burned it up. Loss about \$1,500.

EUROPEAN WAR NEWS.

SATURDAY, November 5th.

The English Cabinet was in extraordinary session yesterday. Earl Granville received a dispatch announcing the acceptance by Trochu of the armistice proposed by Count Bismarck. The protocol of the armistice is signed by General Trochu, Jules Favre, Arago, Ferry, Garnier Pages, Pelletan, Picard and Simon on the part of the Provisional Government, and by Count Bismarck and General Von Moltke on the part of the Germans. The armistice commences on the 4th of November and ends on the 25th. A decree ordering the elections in France will be issued to-day. The Constituent Assembly is convoked to meet on the 15th inst. A minor war in circulation in London yesterday afternoon that the negotiations for an armistice at Versailles had failed. This report had a depressing influence on the markets. England having withdrawn her opposition to a cession of French territory to Germany, the tone of communication between the British Foreign Office and Count Bismarck has greatly improved. No official announcement of the armistice has been made at Tours. The election in Paris on the question of maintaining the powers of the Government of National Defence, resulted in an overwhelming majority in favor of the Government. Full particulars of the riot in Paris on Monday, are given in our dispatches. A telegram from Bern, Switzerland, says the Nationals and Mobs were routed by the Prussians, near Thann, on Tuesday. Two Prussian army corps, recently at Metz, have commenced the siege of Thionville. Seventy thousand Prussian troops, from Metz, are now half way to Paris. Fifty thousand are marching on Garibaldi, at Besancon, which is surrounded. Garibaldi has twenty-five thousand men.

Monday, November 7th.

A dispatch from Versailles, dated yesterday, says the provisional Government at Paris has finally rejected the protocol agreed upon by Thiers and Bismarck, although they had previously signified their approval of it. Thiers has received orders from Paris to inform Bismarck that his condition could not be accepted, and to return to the capital immediately. The cause of the rupture is believed to be the persistent demand of Bismarck for guarantees for a cession of territory. The Prussian ambassador at London says the war will continue all winter. A correspondent at Versailles telegraphs that on Saturday Thiers had an interview with Favre and Trochu at Billancourt. Thiers reported the agreement which had been concluded with Bismarck, which was approved by Favre and Trochu, who expressed the belief that they would be able to secure the support of the inhabitants of Paris in carrying out the proposition. On Friday the provisional Government issued an address to the people of Paris stating that no armistice would be concluded prejudicial to the interests of France or not embracing certain specified conditions. Paris journals to the 4th instant have been received at Versailles. There is plenty of bread, wine, preserved vegetables, poultry and an immense supply of salted meats in the city. Rochefort has resigned from the Committee of Defense, owing to a misunderstanding with the Government on the question of the Communal elections. Since that time he has not been seen. Two balloons from Paris, with five passengers, were captured by the Prussians on Saturday. A dispatch from Dole on the 4th inst., says Garibaldi with thirty Italian officers, have been taken prisoners. The bombardment of Neu Breisach continues. A sortie by the garrison has been repulsed. A serious engagement took place on Saturday, on the road from Dijon to St. Jean de Losne. The Prussians though using artillery and mitrailleurs, had up to 7 P. M. gained no ground. The Prussians had been prevented from crossing the Saone.

TUESDAY, November 8th.

The Paris Monitor says "Prussia, as she would, neither consent to revivifying of Paris nor allow Alsace and Lorraine to vote in the election for delegates to the Constituent Assembly, assumes all the responsibility for the continuance of the war." Prussia, not France, has refused the armistice. The refusal to consent to a cession of territory is also assigned as one of the reasons for the unanimous rejection of the armistice by the members of the Provisional Government. A correspondent at Versailles telegraphed yesterday that Thiers had gone to Tours, and that in reality the negotiating parties never approached a basis of agreement for an armistice. Revivifying of Paris was insisted on from the first by Thiers, but steadily refused by Bismarck. All the journals at Tours express the bitterest resentment at the duplicity of Bismarck, who, while pretending to negotiate an armistice, thus gained time to bring up reinforcements and prevent an attack by the Army of the Loire, which could have taken the offensive with advantage. The Prussians are making the most active preparations for the bombardment of Paris. It is reported that the bombardment will commence to-day. The French Government has ordered the arrest of Marshal Bazaine and the officers of his staff wherever found. Fort

Mortier, at New Breisach, capitulated on Sunday night. Two hundred and twenty prisoners and five cannons were captured. The Germans from Metz are advancing by forced marches on Amiens and Reims.

WEDNESDAY, November 9.

A Tours dispatch says a general battle was fought near Orleans yesterday. No news of the result of the fighting had been received. Thiers is expected to arrive at Tours to-day. A dispatch from Tours says on Monday a Prussian column, with two batteries and 1,500 cavalry attacked the outposts of the army of the Loire at Feisy and Laurent des Bois. The French drove them back and killed and wounded on the field, and had sixty-four men captured. The French loss was four killed and thirty-one wounded. Verdun has capitulated to the Prussians. Count Bismarck states that the French Government having declared, through Thiers, its ability to accept an armistice on the basis of statu quo, the Count proposed that the French name a time for holding elections for the Constituent Assembly. In such an event, the Germans promised that absolute freedom of elections should be allowed, even in the territory occupied by the Prussians. A London telegram states that Jules Favre, with a majority of his colleagues, favored the scheme for an election, and urged the acceptance of the armistice as negotiated by Thiers. General Trochu dissented and carried his point. Metz has been made the capital of Lorraine. King William has issued an order that hereafter no person be allowed to enter or leave Paris. Five passengers have just been captured, and will be court-martialed for a violation of this order.

HARRISON COUNTY ELECTION RETURNS.

The following majorities were given at the different precincts in this county, for W. E. Arthur, for Congress:

Cynthiana, 137; Leesburg 96; Berryville, 12; Buena Vista 70; Richmond, 89; Claysville, 38; Ratland, 43; Casons, 108; Total Majority 583.

Emigration to the West.

We understand that Capt. R. F. Long and J. M. Givens, will about the middle of this month start for southern Colorado, in behalf of the "Emigration Society of central Kentucky" to look up and report character, location and advantages of uncultivated lands there. Southern Colorado is said to be unexcelled in her agricultural and pristine lands, and the purpose of the Society is to locate its members in a body under the Homestead Act and particularly the amended Act of July 15th 1870 in behalf of Soldiers and Sailors in the late war. The land of Southern Colorado are traversed by the Head Waters of the Arkansas river, and with irrigation yield an abundance which to us is incredible and the cost of emigration is said to be but trifling. There is said to be no healthier climate in the world. The following are the officers of the Society—President, Col. W. W. Bradley, Secretary, Lieut. H. M. Magee; Treasurer, Capt. R. F. Long. Emigration to the great West this year has been unprecedented and bids fair to be greater the coming year, and at the present rate their will soon be no uncultivated lands for Homestead settlers. The Secretary H. M. Magee is Postmaster at Cynthiana Ky., and will take pleasure in giving information to all who are desirous of uniting with the society.

A Fire in Frankfort.

By the terrible fire in Frankfort, which was the work of an incendiary, nearly the half of two squares in the very center of business were destroyed, together with a large amount of personal property. Among the losers by this disastrous conflagration are: Bogendorf and Gleich cigar store, a building owned by J. Kaltefleiter; Fred Kenn's confectionary, a building owned by Mrs. Gerard; M. Merzhan, building owned by Mrs. Stoughton; Wm. Colley, residence and saloon; Green and Dehony, dry goods store; Jno. Schweibald, confectionary; Mrs. Redling, two store rooms and grocery; Joseph Lukermeir, grocery and residence; Wm. Cavanaugh, grocery; John Kiernan, grocery; Newman & Bros., grocery; Jerry Lee & Co., grocery; Noel & Bacon, livery stable; Peter Smith, barber shop; Evans' hair's splended residence; W. C. Childs' residence, Christian church, Odd Fellows' Hall. The aggregate loss is from \$150,000 to \$200,000; insurance from \$75,000 to \$100,000.

Accident to Judge Arthur.

The buggy of Judge Arthur, Democratic candidate for Congress, was upset on Fourth street, near Mahan, yesterday morning. The Judge was considerably bruised by the fall, but received, but continued to visit the polls during the afternoon. The accident was caused by one of the ugly lumps which run through the middle of nearly all the streets of Covington since the water pipes were laid.

A BODY AND MIND DISEASE.

Such is Dyspepsia. The stomach and the brain are too intimately allied for the one to suffer without the other, so that dyspepsia and despondency are inseparable. It may be added, too, that irritation of the stomach is almost invariably accompanied by irritation of the temper.

The invigorating and tranquillizing operation of Hostetter's Bitters is most powerfully developed in cases of indigestion. The most effect of this agreeable tonic is comforting and encouraging. A mild glow pervades the system, the chronic heaviness in the region of the stomach is lessened, and the nervous restlessness which characterizes the disease is abated. This improvement is not transient. It is not succeeded by the return of the old symptoms with increased force, as is always the case when unmediated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The persistent and anti-billions properties of the preparation are scarcely secondary in importance to its tonic virtues. If there is an overabundance of bile too secreted in some branch within proper limits, and if the biliary organ is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The Bitters also promote healthy action in cases of catarrhs of the urinary tract, and in cases of rheumatism and neuralgia. The best of all, the invigorating and anti-billions properties of the preparation are scarcely secondary in importance to its tonic virtues. If there is an overabundance of bile too secreted in some branch within proper limits, and if the biliary organ is inert and torpid it is toned and regulated. The best of all, the invigorating and anti-billions properties of the preparation are scarcely secondary in importance to its tonic virtues. If there is an overabundance of bile too secreted in some branch within proper limits, and if the biliary organ is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The Bitters also promote healthy action in cases of catarrhs of the urinary tract, and in cases of rheumatism and neuralgia. The best of all, the invigorating and anti-billions properties of the preparation are scarcely secondary in importance to its tonic virtues.
